

# VINEYARD DUSTERS

**Flory's "POW'R FLO" Sulfur Duster** is compact in size for the narrow spacings, yet powerful to handle the wide spacings

## MODEL D-20 3-POINT

- Positive sulfur feed with smooth agitation results in an even discharge eliminating "hot spots" in your vineyard.
- The quiet proven double-sided centrifugal fan forces sulfur over and through the canopy resulting in uniform and thorough coverage.
- Flory Dusters can be converted to a 3-point or a tow duster in a few minutes.

## MODEL TD-20 TOW

*Flory...  
For the Long Run!*
